

ENTITY #3

Information

Smilers are generally hostile, and there have been many confirmed sightings of them. They can be identified by their signature reflective eyes and teeth gleaming in the dark. The ways to escape a Smiler is to keep eye contact. But in some reported cases the victim has been killed when keeping eye contact. One method that will help is knowing the location of the smiler, while holding distance. Smilers tend to reside in dark areas, reported sightings have been from Level 2, 3, 6 and 8 of the backrooms. They have also been confirmed seen in sublevels. Their Base is known to be "The Smiling Room".

Behaviors

Smilers thrive in dark and damp areas. While generally passive, it is not difficult to agitate them through sudden flashes of light or visible light sources, as they are hypersensitive to this type of electromagnetic radiation. Wanderers who navigate dark levels with the aid of light run the risk of triggering Smilers, which will then give chase. The danger is further compounded when multiple Smilers are nestled together in their dormant state, as triggering one will typically trigger the entire group. If a wanderer is fast enough, they may be able to escape Smilers with their life. Other strategies may be employed as well, such as extinguishing the light source, or dropping it as a distraction to preoccupy them. When perturbed, the Smilers will prioritize destroying the light source over murdering the wanderer. If the light is too close to the wanderer, however, they will unfortunately be caught in the frenzy. The entities will attack with slashes and chomps, leaving deep gashes. Noticeable and rapid blood loss will result, and as such it is advised to treat wounds as soon as possible. Those who escape attacks from Smilers are typically left with extensive and long-lasting scars.

References

As stated there has been reported many sights of entity 3. But not many validated pictures have been gathered. Here is a picture we were allowed to get from the police. Because this one was found on the phone of a security guard that passed away. The photo's date is the date he died.
